Professional Summary

Detail-oriented Odoo Developer with 5+ years of hands-on experience designing, developing, and deploying custom Odoo solutions. Strong knowledge of Python, PostgreSQL, XML, JavaScript, and the Odoo framework (ORM, QWeb, OWL). Proven track record of delivering robust modules for Accounting, Sales, Purchasing, and POS, mentoring junior developers, and improving system performance and automation.

Work Experience

- Senior Odoo Developer — Peerless Technology

March 2023 – Present

- Led a team of developers (4) and implemented best practices in code reviews and CI/CD pipelines.
- Designed and deployed custom modules for Accounting and HR used by multiple clients; improved process efficiency.
- Implemented integration with third-party payment gateway reducing manual reconciliation time.
- Provided L3 support and reduced critical incident resolution time.

- Odoo Developer — Noptics

December 2018 – September 2021

- Developed and maintained custom Odoo modules (Sales, Purchases, POS) and QWeb reports.
- Built REST integrations between Odoo and external e-commerce and mobile applications.

- Created automated tests and performed QA, reducing post-release bugs.
- Optimized PostgreSQL queries improving report generation time.
